## Dust Suppressant

Nushine Dust Suppressant is a long lasting dust suppressant which was designed specifically for Australian conditions for the earthmoving/mining industry where problems associated with poor water absorption in soils and road bases costs time, money and wastes our precious water resources.

This is a very low impact product that can be used safely to increase your productivity and reduce cost. There are cheaper dust suppressants out there, but none that are as effective as Nushine Dust Suppressant. Try it, see the benefits and then calculate your total savings taking all factors into consideration.

### **Uses:**

Nushine Dust Suppressant is a highly active dust suppressant, used in road construction, earth works and agricultural situations.

### **Benefits:**

- Reduced dust when work is completed
- Less evaporation and less water run-off
- Greater water savings
- Increases compaction significantly
- Fast penetration of most soil types
- Enables even spread of moisture
- Easy to mix and use
- Harder surface finish when used to make slurry, ensuring longer road life
- Eliminates beading in bulldust to give good penetration

### **Point of Difference:**

- Nushine Dust Suppressant is very cost effective.
- Nushine Dust Suppressant may be used with any type of water, including rainwater, bore water and salt water.
- Tankers used to apply Nushine Dust Suppressant may also be used to cart drinking water (unlike other acid-based products).

## Directions:

- **Road bases:** dilute Nushine Liquid Soil Wetta at 1:2000 with water and apply via water tanker. If repeating, use product in every third tanker load. No residual is left in tank after flushing.
- **Long term agricultural soil wetting:** use 100 ml of Nushine Liquid Soil Wetta per 100 litres of water.
- **Street Sweepers and Fire Fighting:** dilute Nushine Liquid Soil Wetta at a rate of 1:2000 with water for improved efficiency.

## Shelf Life:

- Indefinite when stored in a cool, dry, well ventilated location away from direct sunlight.

## Packaging:

- 5 litres
- 10 litres
- 20 litres
- 205 litres
- 1000 litres
