

Convenient protection for those most at risk!

BIO-WASTE SPILL KIT

- Fast Acting—immobilises spills on contact
- Minimise potential cross contamination
- Reduce slip hazard risk
- Spilled surfaces can be cleaned easily
- Non-toxic and safe to use
- Reduce handling risk

SpillFix BIO-WASTE Spill Kit is a convenient and safe method for cleaning up hazardous human and animal spills. Simply apply BIO-WASTE Infectious Waste Absorbent over the spill and it will immediately immobilise and solidify liquid spills which can swept up for safe disposal.

SpillFix BIO-WASTE is suitable for liquids, semi-liquids and moist solids and be used to clean up Blood, Urine, Vomit and Faeces. Its unique wicking and immobilising characteristic of the natural material makes an awkward cleaning job simple and safe.

The natural Australian essential oils added provide a natural fragrance mask. SpillFix BIO-WASTE is harmless when used as directed and is non-toxic and non-hazardous to humans and animals.

Spill Fix BIO-WASTE Spill Kit comes complete with the necessary items to safely clean up hazardous spills.
